

# Make a Spring Nest

Materials:

- \*white glue
- \*straw
- \*a bowl to mix the straw and glue
- \*a bowl to mold the nest

Directions:

- \*mix straw with plenty of white glue in a bowl, make sure all straw gets well covered in the glue
- \*take a handful of the straw/glue mixture and press into another bowl, using the shape of the bowl to guide the shape up the sides
- \*allow to dry for 24 hours, you may want to check it and press back into the bottom of the bowl if it has popped up while drying
- \*once dry, carefully peel nest from bowl
- \*add eggs or make your own, or maybe make some craft baby birds
